Profile Summary

I am a motivated and detail-oriented Flutter Developer with a passion for building smooth and engaging mobile apps. After recently finishing my studies in software development, I have hands-on experience creating responsive, high-performance apps using Flutter and Dart. I'm skilled at developing cross-platform solutions, integrating APIs, and working well in agile teams. I'm excited to use my technical skills and creativity to help create innovative projects and achieve great results.

Projects

Book My OP: Hospital OP Ticket Booking App *Flutter, Dart, Firebase* **GitHub**

- Recently developed **Hospital OP Ticket Booking App**, a user-friendly platform designed to seamlessly allow users to easily book appointments with just a few taps.
- The Hospital OP Ticket Booking App includes features such as user registration, service listings, appointment booking, and payment integration, with a QR code included in the booking details for easy check-in.
- Proficient in **Dart**, **Firebase integration**, and **RESTful APIs** to ensure real-time data syncing and efficient app performance.
- The OP Ticket Booking App offers exceptional performance, ensuring fast, reliable, and seamless appointment bookings for users, with a smooth and efficient experience throughout.
